Profile

Amirali Pishdadi - Back-End Developer

I'm Amirali Pishdadi, a passionate back-end developer who thrives on learning and exploring new technologies. I have a deep love for programming, constantly seeking to expand my knowledge and skills. staying active both mentally and physically. At just 16 years old, I'm excited to see where my journey in tech will take me!

Employment History

Web Developer with Experience in Laravel, Tailwind CSS, and React

- **Dynamic Web Development:** Leveraged the Blade templating system within Laravel to create dynamic, user-friendly web pages, ensuring a seamless and responsive user experience.
- **Database Management:** Utilized Laravel's Eloquent ORM to efficiently store and query data from MySQL databases, enabling robust data management and manipulation.
- **E-Commerce Website Development:** Successfully developed an e-commerce website using Laravel and Tailwind CSS, focusing on creating a modern, intuitive interface that enhances user engagement and optimizes conversion rates.
- **Social Media Platform Creation:** Built a website similar to Instagram using Laravel and Tailwind CSS, incorporating features such as user authentication, photo sharing, and real-time interactions to mimic the functionality of popular social media platforms.
- **Game Development:** Developed a Coin Clicker game using Tailwind CSS and React.js, demonstrating proficiency in front-end development and interactive, real-time user interfaces.
